Subject: Re: Follow-up Soil Testing--SH Bell area

Will do, Nicole.

I look forward to getting an update about the soil testing as soon as possible.

Thanks,

Hello Debbie:

Since I am the attorney representing the Agency on the SH Bell matter, and you are an attorney, I must ask you to direct all of your inquiries to me.

Thanks!

Subject: Follow-up Soil Testing--SH Bell area

Hi Brad and Steve,

I am following up on some voicemails I have left for Steve. I would like to touch base and learn more about the results that you are seeing in the soil testing near SH Bell. The last time we spoke, Steve, you had just sent back results to 8 residents. I am sure you have a lot more back now. While I do not need to know information that it is private, I am hoping to get a general sense of what you are finding—e.g., how many properties exceed 5,500 ppm of manganese in the soil. How many exceed 1,600 ppm? Are there any other contaminants—e.g., lead—showing up in high numbers or with regularity in the sampling results?

Thanks much,

Debbie
